

Phone Keypad Features

When dialing into the phone meeting the Secretary/Chair enters the pin number 52639# and then presses number 1 and then enters the moderator code. You come into the meeting muted. When you press *5 to clear the noise on the bridge you come back unmuted.

*1 to mute and unmute

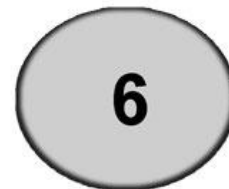

*6 to increase conference volume

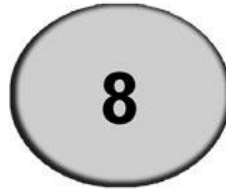

*4 to decrease conference volume

*5 for moderator to clear bridge noise

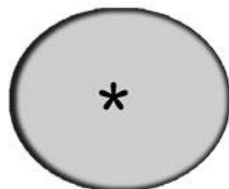

*7 to decrease your volume

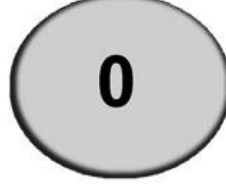

*8 to exit menu

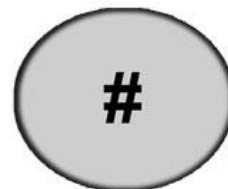

*9 to increase your volume

*by itself to hear menu features

*0 for conference count

Email alanonphonemeetings@yahoo.com for the moderator code. It is suggested that the secretary/chair only dial in using the moderator code for the meeting that they are leading.
